

VISHWA DESHAN DAYARATHNE

Software Engineering Graduate (Results Pending) | Associate Software Engineer
+94-75 609 6595 | 2001vddayarathna@gmail.com
Vishwa Dayarathne | VDDayarathne | Portfolio
Colombo, Sri Lanka

PROFILE

Software Engineering graduate (results pending) with hands-on experience delivering production-level software in professional engineering environments. Currently working as an Associate Software Engineer, with experience in building scalable backend features, improving system reliability, and developing clean, maintainable solutions using modern engineering practices. Strong problem-solving, collaboration, and analytical skills, with experience working on enterprise FinTech and banking solutions.

EXPERIENCE

- **ZData Innovations** *July 2026 - Present*
  Associate Software Engineer Malabe, Sri Lanka
  - Promoted from Software Engineer Intern to Associate Software Engineer in recognition of contributions to backend development for enterprise FinTech and banking solutions.
  - Continuing to work within a Spring Boot modular monolith following DDD and SOLID principles, taking on increased ownership of feature delivery.

- **ZData Innovations** *July 2025 - July 2026*
  Software Engineer Intern Malabe, Sri Lanka
  - Contributed to backend development for enterprise FinTech and banking solutions, working within a Spring Boot modular monolith following DDD and SOLID principles.
  - Implemented and optimized CRUD operations, service-layer logic, DTO mapping, and JPA/Hibernate repositories across customer onboarding, master data, and KYC domains.
  - Developed and tested GraphQL queries, mutations, and resolvers; supported smooth backend–frontend API integration for banking product features.
  - Designed and maintained Liquibase schema migrations (tables, relationships, constraints) ensuring stable and version-controlled database releases.
  - Improved platform reliability by implementing optimistic locking, soft-delete flows, active-record filtering, and robust validation logic.
  - Supported JWT-based authentication and permission-driven authorization used across banking modules; contributed to API documentation and integration testing.
  - Collaborated within an agile engineering team to refactor legacy components, resolve API integration issues, and enhance feature stability for financial applications.

- **Bank of Ceylon - Super Grade Branch** *November 2021 - August / 2022*
  Internship Kandy, Sri Lanka
  - Gained professional experience in a structured banking environment, supporting customer service operations and developing key soft skills such as communication, attention to detail, and teamwork.

EDUCATION

- **Sabaragamuwa University of Sri Lanka** *2022 – 2026*
  BSc (Hons) in Software Engineering Belihuloya, Sri Lanka
  - **Degree requirements completed; awaiting final results.**

- **K/Vidyartha College Kandy** *2020*
  G.C.E Advanced Level Examination [Index No:3305203] Kandy, Sri Lanka
  - Combined Mathematics - A
  - Physics - B
  - Chemistry - B

Projects

- **Orion AI : AI Prompting Skills Development Game(Group Project)**
  Role: Backend Developer | Tools: Python(Django), MongoDB, React, JavaScript Frontend[] Backend[]
  - Collaborated on a group project to develop a web-based game that helps users enhance their AI prompting skills across domains like text, image, and code generation. Led the backend development, implementing RESTful APIs, managing user progress data with MongoDB, and integrating prompt-enhancement logic to support interactive gameplay.

- **SMS : Sport Management System**
  Role: Full-stack Developer | Tools: React, JavaScript,Java SpringBoot, MySQL, TailwindCSS Frontend[] Backend[]
  - Developed a web-based platform to streamline sports facility management and event coordination for university students. Enabled users to view schedules, register for activities, and manage team information. Contributed to both frontend and backend development, focusing on creating a responsive interface and maintaining robust database integration.

Technical Skills

- **Programming Languages:** Java, Python, PHP, JavaScript
- **Frameworks:** Springboot, Django, Laravel, React
- **Database Systems:** MySQL, MongoDB, PostgreSQL
- **DevOps & Version Control:** Git, Github
- **Other Tools & Skills:** Adobe Photoshop, Figma, Postman, Cisco Packet Tracer, Microsoft 365

Soft Skills

- Team Working & Collaboration
- Communication
- Time Management
- Problem Solving
- Adaptability
- Leadership
- Self Learning Ability

Volunteer Experience

- **CAREERFORGE Phase 2 - Program Team Leader**
  Sabaragamuwa University of Sri Lanka - IEEE Student Branch
  - Led the planning and coordination of a professional development programme, organising workshops, panel discussions, and mentorship sessions with academic and industry stakeholders.
  - Strengthened leadership, event management, teamwork, and professional communication skills.

- **PEARLHACK - Logistics Team Leader**
  Sabaragamuwa University of Sri Lanka - IEEE Student Branch
  - Managed end-to-end event logistics, including resources, venues, technical arrangements, and stakeholder coordination to ensure smooth hackathon execution.
  - Demonstrated strong organizational, problem-solving, teamwork, and communication skills in a fast-paced environment.

Extracurricular Activities

- Active member of the IEEE Student Branch of Sabaragamuwa University of Sri Lanka, contributing to various technical and professional events.
- Active member of the Society of Computer Sciences at Sabaragamuwa University of Sri Lanka, participating in academic and collaborative student initiatives.
